

ONLINE REGISTRATION INSTRUCTIONS FOR 2016

Registering for the FESTIVAL DE GOLBOS DE LEON, 2016 on line will be a great advantage to you now and in the future. All of your data will be retained and you will no longer have to fill out the long and detailed paper documents, scan the images and mail in the package. You will be able to enter all the data required for this festival and for subsequent years, only update the data that has changed. We will all be looking at the same data online; you will be able to change your data anytime it is required. You will be required to scan the required documents and upload them to this registration process initially. It is an easy and paperless process. Simply follow the instructions below. There is no new data required, only a new way of submitting the same data. Many of you may have copies of documents from past years, if they are valid and current, simply upload these documents and you are good to go. All documents will be reviewed before you are approved to attend, so be sure the information you submit is good. The process will validate your documents and you will receive an email regarding the completeness of the data and documents when you “request access”.

INSTRUCTIONS: For first time users.

1. In the upper left corner of the front page, you will find a sign in box which will allow you to “log in” if you have an account or “Sign up” if you do not. You may also reset your password from last year if you do not remember it. You will see a page titled “Registration” where you will fill in your first and last name and your email address. The “Captcha” window will contain some characters creating two words that you must type correctly in the box as shown. The field titled “Username” is where you create a unique Username for you to use in logging onto the site from now on. Click the Accept Terms and Conditions and then click “Register”
2. You will then receive an email containing a link to this site. Click on that link, this established the fact that we have a valid email address and that email address is you. In this email, you will receive acknowledgement of your valid email address and your UserID. These items will never change. When you click on the link in the first email, we will create your account and you will immediately see a message screen telling you your registration is complete. We will also send you an additional email containing your password. This password will allow you to log on to the registration site.
3. Once you have your UserID and Password, you may log on. The password we send you may be your permanent password or if you wish, you may easily change your password to something more meaningful. After you have logged on, you will see a page that contains the data for the Festival de Globo, Leon, MX. I suggest you go immediately to the tab on the very top that says “Update Your Profile” Select that tab, then, select the tab titled Website, under the Profile tab.
